

Certificate IV in Allied Health Assistance (Physiotherapy) (HLT43015)

STIRLING
INSTITUTE of AUSTRALIA

The allied health assistance program will train you to assist patients with their rehabilitation exercises including physiotherapy.

Allied health workers assist patients carrying out routine physiotherapy exercises in groups or individually. Other roles include helping to implement general care and assisting with ongoing therapy, as well as working with patients in recreational and leisure activities.

Allied health assistants also support the training of people with disabilities to care for themselves and develop independent living skills.
